Focus area

MAIN SKILLS ASSESSMENT/ANTICIPATION INITIATIVE

The policy goal of Education and Work is to create a user-friendly tool communicating to the general public the concepts of the National Register of Qualifications, namely the Vocational Qualifications. It also serves as an intermediary platform connecting information on skills and corresponding work opportunities. The portal provides users with the opportunity to match their skills and qualifications with corresponding job titles and vacant positions. It also works the other way around: giving information on available training courses, exams and certificates for those interested in gaining skills required for specific jobs.
