

Partnerships and collaborations for success

Europe impact report 2024-2025 from Generation

Description

The report highlights significant achievements in transforming education to employment systems, with over 5,100 graduates trained and placed in high-demand sectors such as healthcare, tech, and the green economy. Key findings include 86% of alumni engaged in paid work 2-5 years post-graduation, demonstrating long-term success and financial stability. The report emphasises strong partnerships across Europe contribute to addressing labour market gaps, matching skills in demand and expanding training programmes. Future goals focus on further expansion, advocacy, and building more collaborations to enhance skills development at the European level.
