

Impact evaluation of the projects implemented under the ALMA initiative

Final evaluation report 2026

Description

The objective of this report is the evaluation of 28 projects under the [ALMA initiative](#), carried out with the European Social Fund Agency, and more specifically of the impact on participants and beneficiaries.

It seeks to assess to what extent the principles of sustainable development were applied during the project implementation phase, to determine the relevance, sustainability, and expected continuity of the investments, and to carry out a financial efficiency analysis of the project. The report also identifies key lessons learned and proposes recommendations regarding this and similar projects.
