Source of financing and collection mechanism	State

Financing formula and allocation mechanisms	The maximum amount that an apprentice may receive per year is approx. EUR 938 (exchange rate SEK 1 = EUR 0.104273, 11 July 2017). The amount is the same regardless of the actual expenses incurred. The subsidy is paid monthly and payments are discontinued during in-school and holiday periods. Funds are disbursed to all eligible applicants on the basis of legal entitlement. Apprentices above 18 years of age receive the money on their own bank account. If the apprentice is under 18 years of age, the money is transferred to his/her parent(s) bank account.
Eligible costs	Travel and meal expenses (but not accommodation).
Volumes of funding	In 2016, public funding amounted to EUR 6,390,000 (estimate by CSN based on the development of previous years and the first half of 2016. Exchange rate SEK 1 = EUR 0.104273, 11 July 2017.) In 2015, public funding amounted to EUR 5,740,000 (actual amount paid in January-December). No EU funding involved.
Beneficiaries/take up	In 2016 (calendar year), some 10,700 apprentices benefited (estimate by CSN based on the development of previous years and the first half of 2016). In 2015, 7,779 apprentices benefited (the actual number of beneficiaries for the academic year 2015/2016), i.e. 84% of all students enrolled in apprenticeship programmes. The number of beneficiaries has increased annually since the introduction of the instrument in 2014. Some 62% of the beneficiaries were men and 38% women, which correlates with the larger number of men in apprenticeship education.
Monitoring/evaluation reports available	CSN, Kostnadsersättning till lärlingar 2013/14-2015/16. Kommenterad statistik. Rapport 2016:6, Diarienummer 2015-100-9484. http://www.csn.se/polopoly_fs/1.17701!/Rapport%20L%C3%A4rlingsers%C3%A4...
Monitoring/evaluation results	The number of apprentices increased notably the year the instrument was introduced, which might indicate an effect of the instrument on the attractiveness of the education.
