

Erasmus+ project: Training Materials for NEET Teachers

Work Pack of training materials, methodologies, course plans and class schedules to help deliver Effective Training for NEETs

Description

This comprehensive document consists of training methods, schedules, core modules and effective element combinations in a toolkit style. There are themes and overviews of current training best practice, and specific case studies and examples outlining effective training. This training material pack is a 'ready to go' template for NEET teachers and training organisations. This template is made up of teaching materials which are broken down into individual modules to be completed in a 5-day course.
