Programme

Conference of the
Committee of the Regions

Europe 2020, Europe's growth strategy, puts young people at its centre. It has a special agenda for improving their education and employment, since the economic crisis in several EU member states puts youth in a very difficult situation. On average, over 22% of those under 25, who are available to work, cannot find a job. The percentage is over 50% in the worst-affected member states.

The event will be **the first in a series of seven CoR conferences in 2012/13 on the seven flagship initiatives, which are part of the Europe 2020 strategy**. A few days after the adoption of the "Youth Employment Package" by the European Commission, the Committee of the Regions (CoR) will address the topics of employment, apprenticeships, training and mobility of young people.

The conference will involve representatives of regional and local authorities in order to discuss the flagship initiative "Youth on the Move" both from the EU and from the local and regional point of view. Participants will assess the state of play on the implementation of the flagship, whilst regions and cities showcase best practices. Conclusions of the conference will feed into the **CoR's contribution to the mid-term evaluation of the 2020 strategy**. This CoR contribution is to be adopted at the 2014 European Summit of Regions and Cities.

The event will provide for:

- Political input from regional and local authorities on the delivery of the flagship initiative;
- Information on EU activities linked to it such as the Youth Employment Package;
- Exchange of experience and good practice on how to fight youth unemployment;
- Information on the relevant opinions and works of the CoR.
