

TTnet workshop:
“The European dimension to training tutors in enterprises”
- Occupations in the fields of data processing and the new media
Berlin, the 8 and 9 October 1998

AGENDA

Aim of the workshop:

To identify and describe common fields of work of training tutors in enterprises. The focus should be mainly on the organisation of in-company training and its methodological implementation, on the model of occupation ‘surrounding data-processing’.

8 October

Start: 9 a.m.

End: 5 p.m.

Talks to provide a structure:

Duccio Guerra - Cedefop	Introduction to the aims and the scope of the workshop.
Reinhard Selka - BIBB	The European dimension to training tutors in enterprises.
Françoise Gérard - Centre INFFO	The issue of training tutors in enterprises in Germany, Austria, Spain and France.
Heinz-Dieter Voskamp - Siemens Nixdorf AG	The issues of training tutors in enterprises.
Mathias Laermanns - AIM	The issues of training tutors in enterprises, the example of large companies.

9 October

Start: 8.30 a.m.

End: 4 p.m.

Structuring assistance:

Brief survey of in-company training places in private companies

Talk:

Rob Kluivers Influence of tele-teaching on instructing teachers and trainers of vocational training.

Conclusions

Duccio Guerra

Interpretation will be provided from German, French, and English into German, French, and English.
