

Skills Governance in Slovenia

First support workshop on setting up a Skills forecast system

4 February 2021, Virtual workshop

General information

Workshop venue: Microsoft Teams

Organisers: European Centre for the Development of Vocational Training (Cedefop) in cooperation with Slovenian Ministry of Labour, Family, Social Affairs and Equal Opportunities

No. of participants: The event is restricted to invited participants

Participants' profile: Slovenian stakeholders, experts in skills forecasting and labour market analysis

Working language: English

Introduction

The Slovenian Ministry of Labour, Family, Social Affairs and Equal Opportunities has reached out to Cedefop to seek expert advice with regards to setting up a Skills Forecasting system and to improve the governance of skills anticipation and matching in the country. Cedefop has agreed to organise a first online workshop which is dedicated to sharing information and expertise on skills forecasting.

Workshop rationale and objectives

This workshop provides a platform for stakeholders from Slovenia to meet with experts from Cedefop's Skills Forecast network and receive technical advice on how best to proceed with setting up a national system, taking into account data availability in the country. Particular emphasis will be placed on the challenges of organising and implementing skills forecasts in a small country.

Workshop structure and methods of working

The virtual workshop will be organised as a series of presentations and discussions. During the presentation, all microphones will be muted. The raise hand option in Microsoft Teams will be used to indicate the request to ask a question. The moderator will indicate the order of the participants to ask questions.

Agenda

Thursday 4 th February 2021	
10:00 – 10:15	Welcome and introduction (Jasper van Loo)
